

# Our Waterline Ring Problem Recommendations Are Below!

Please see our step by step solution and recommended products below. You can shop products online, [download a pdf](#) of this page or [print a shopping list](#) that you can bring in store to help find what you need.

## Problem

---

**Waterline Ring**

## Solution

---

Organic debris tends to accumulate around the waterline of all swimming pools. Due to the chemical nature of [BAQUACIL® Swimming Pool Sanitizer and Algistat](#), you may have slightly heavier deposits, especially during the first few weeks after converting to the [BAQUACIL® CDX® System](#). You can clean the ring easily by using [BAQUACIL® Surface Cleaner](#). This product may be used above and below the waterline.
